

Consulting Services Tailored to Your Needs

Did you know that the nationally recognized experts at the Institute for Safe Medication Practices (ISMP) are available for focused input and recommendations in addition to larger engagements?

Connecting virtually with our team is a cost-effective way to address specific safety challenges—it is like having extra medication safety staff members when you need them!

CONTACT US FOR:

- Timely feedback on a particular medication safety issue
- Assistance with medication safety projects on any scale
- Recommendations on best path to take to tackle problem areas
- Experts to join you at the table for key safety discussions or decisions

WHY ISMP?

The ISMP team can offer solutions for facilities of all sizes and settings based on unique knowledge of errors gained from the nation's only voluntary national medication error reporting program.

ISMP's nurses, pharmacists, and physicians have a proven track record of assisting hundreds of healthcare organizations around the country as well as internationally. They can help you sort through complex safety issues, identify key next steps to focus on, and create a practical path forward to implement evidence-based strategies and best practices.

Have ISMP Experts in Your Back Pocket

- › Consulting support that best fits your situation
- › Assistance building a foundation for your medication safety program
- › Unbiased analysis of ongoing problems and customized guidance
- › Services for organizations in most healthcare settings, anywhere in the world

ISMP is here to support you!
